

HIGH PERFORMANCE STRIPPING PAD

Features:

- Designed for fast removal of finish
- Open construction resists loading and clogging
- Use on standard, low speed automatic scrubbers and rotary floor machines

Description

This product is a floor stripping pad made of nylon and polyester fibers. Abrasive particles are dispersed throughout and bonded to the non-woven construction with a durable adhesive. The pads are nominally three quarters of an inch thick and available in various sizes.

Use

This product is used with water-based floor finish stripping solutions to remove old soiled floor finishes and sealers. The product is normally used on low speed rotary floor machines (175-600 rpm) or automatic scrubbers.

TECHNICAL INFORMATION	
Fibers:	Nylon/Polyester blend
Sizes:	Available in a variety of common sizes
Thickness:	3/4" nominal
Center Hole:	3.25"
Recycle Content of Packaging:	Packaging consists of 50-100% recycled materials and is 100% recyclable
Color:	Grayish Black
