

WHITE POLISHING PAD

Features:

- Designed for light cleaning and polishing of hard surfaces
- Removes scuff marks with minimal dulling of finish
- Use on standard, low speed automatic scrubbers and rotary floor machines

Description

This product is a floor buffing and polishing pad. It is made of polyester fibers in an open-web construction. Polishing particles are dispersed throughout and bonded to the non-woven construction with a durable adhesive. The pads are nominally one inch thick and available in various sizes.

Use

This product is used for light soil cleaning under an automatic scrubber. It is also used for spray cleaning and/or dry buffing under a rotary floor machine (175-600 rpm).
