

# AQUA BURNISHING PAD

**Features:**

- Designed to improve gloss and image clarity of floor finishes
- Easy repair of floor finish with exceptional durability
- Use on ultra high speed electric, battery, or propane floor machines

**Description**

This product is a floor burnishing pad for use on ultra high speed floor machines that operate in the 1500-3000 rpm range. The pad is made of nylon and polyester fibers. This product is designed for high frequency burnishing programs on soft finishes. It produces low powdering and high gloss levels. The pad is nominally one inch thick and available in various sizes.

**Use**

This product is used for burnishing or polishing on ultra high speed floor machines (1500-3000 rpm). It can be used with cord electric, battery electric, or propane powered machines.
