

TAN BURNISHING PAD

Features:

- Designed to improve gloss and image clarity of hard surface floors
- Removes scuffs and marks on high traffic hard surface floors
- Use on ultra high speed electric, battery, or propane floor machines

Description

This product is a floor burnishing pad for use on ultra high speed floor machines that operate in the 1500-3000 rpm range. The pad is made of polyester fibers in an open-web construction. This product is designed for mark removal on harder finishes or in high traffic areas. The pad is nominally one inch thick and available in various sizes.

Use

This product is used for burnishing on ultra high speed floor machines (1500-3000 rpm). It can be used with cord electric, battery electric, or propane powered machines.
