

NATURAL WHITE BURNISHING PAD

Features:

- Designed to improve gloss and image clarity of hard surface floors
- Provides consistent high gloss on a variety of finishes and traffic conditions
- Use on ultra high speed electric, battery, or propane floor machines

Description

This product is a floor burnishing pad for use on ultra high speed floor machines that operate in the 1500-3000 rpm range. This product is made of natural and polyester fibers in an open-web construction having resins throughout and bonded to the web structure. This product is designed for moderate to high frequency burnishing programs. The pad is nominally one inch thick and available in various sizes.

Use

This product is used for buffing or limited spray cleaning on ultra high speed floor machines (1500-3000 rpm). It can be used with cord electric, battery electric, or propane powered machines.
