## Heavy Duty Floor Stripper

**REN02798**  
(297221)

**REN02799**  
(297222)

**Features:**

- Ultra low odor formula
- Has no butyl or ammonia
- Ecologo certified floor stripper

**Description:**

Specifically formulated to meet the requirements of Ecologo CCD-147 Hard Floor Care Products standard. Has no butyl or ammonia and will effectively strip zinc-free and conventional finishes. The ultra-low odor formula is ideal for use in facilities where odors are a concern. Can be used to remove all Renown floor finishes/sealers.

**Directions:**

**REMOVING FLOOR FINISH/SEALER:** Use appropriate personal protective equipment. Dilute product as follows: Light Build-up of Floor Finishes: Dilute product 1:8 with cold water. Heavy Build-up of Floor Finishes: Dilute product 1:4 with cold water. Blockade areas to be stripped. Floors will be very slippery when stripper is applied. Exercise caution. Apply liberal amounts of solution uniformly to floor with a mop. Start with the edges to give them more soak time. If splashing occurs, wipe off surfaces with a clean rag dampened with water. Let stripper solution soak for 5-10 minutes. Mop agitate to loosen finish or sealer. Re-wet as necessary, do not allow stripper to dry on the floor. Longer soak times may be necessary in cases of extreme buildup. Hand or machine scrub thoroughly using appropriate pad or stripping brush. Pick-up all of the solution with a clean mop, wet vac or automatic scrubber. Mop up any "tracks" left by wet vacs or automatic scrubbers before they dry. Thoroughly rinse floor with clean water, using a mop and bucket. Let floor dry completely before applying recommended Renown Powered by Butcher's floor sealer or finish.
