

FLOOR STRIPPER

RENO2817-MS
(107454)
RENO2852-MS
(107470)
RENO2922-MS
(100987)

Features:

- Economical
- Non-Caustic
- No Residue

Description:

This product uses a concentrated solvent system that re-dissolves the floor finish rather than breaking the finish loose from the floor. Solvents and surfactants act quickly to dissolve and emulsify cured finishes while metal cross-links are being attacked and broken down. May be used as a no-scrub stripper or with a conventional floor machine and pad depending on the concentration of the product and the condition of the floor. The formula leaves virtually no residue, thus reducing time and labor required to neutralize the floor.

Directions:

Use: 1. Sweep or dust mop the floor to remove any debris. 2. Dilute stripper from 1:3 to 1:14 (32oz. to 9oz./gal) with cold or warm water, depending on age and build-up of finish. Do not use hot water. 3. Apply liberally with a mop to an area small enough so as not to allow the product to dry. Be sure to completely cover floor to baseboards. 4. After 3 to 5 minutes, agitate the wet section with a mop or machine scrub. Pick up solution using a mop, wet vac or automatic scrubber. 5. Rinse thoroughly with clear water to remove residue as necessary.

NOTE: Asphalt tile and rubber flooring could be affected by stripping solutions in high concentrations with hot water. Always test floor before proceeding.

TECHNICAL INFORMATION:	
Active Ingredients:	30.0 ± 0.5%
Color:	Yellow
Odor:	Sassafras
pH:	12.5 - 13.0
Viscosity:	Water thin
Foam:	Low
Abrasives:	None
Phosphate Content:	None
Solubility:	Complete with water
Emulsification:	Excellent
Detergency:	Excellent
Rinsability:	Excellent
Flash Point:	170° F (TCC)
Biodegradability:	Complete
Storage/Stability:	2 years
Weight per Gallon:	8.02 lbs./gal.
Freeze / Thaw Stability:	Keep from freezing
