# NANO FLOOR RESTORER

**Features:**

- Nano-Infused additive
- Styrene free
- Cleans & restores
- Extends the floor finish life cycle

**Description:**

A restorer formulated with a nano-infused additive designed to extend the floor finish lifecycle. Revitalizes finishes by creating an ultimate wet look. Can be used as a one-step cleaner/maintainer or at a higher concentration on a pre-cleaned surface for heavy restoration. This styrene free restorer will not cause the finish to yellow and will not powder from the friction caused by high-speed burnishing. The nano-infused additive provides excellent leveling properties while filling in smaller floor finish scratches, and improving traction. Concentrated formula can be used in auto-scrubbers or in mop and bucket applications.

**Directions:**

Cleaning / Maintaining:

Dust mop all flooring and remove gum and adhesives. Dilute 1 part restorer to 16 parts cool water in the solution tank of the auto-scrubber or mop bucket. Auto-scrub or mop on all flooring using overlapping passes. If auto-scrubbing, dispense, agitate, and pick up the solution. Pick up any puddles with a clean damp mop. Allow to dry thoroughly. Burnish all flooring to clean and restore floor finish.

For Heavy Restoration:

Dust mop all flooring and remove any gum or adhesives. Damp mop or auto-scrub floor with a neutral pH floor cleaner following label directions. Dilute 1 part restorer to 4 parts cool water in a mop bucket or auto-scrubber. Apply a thin, even coat on the surface. Do not pickup solution. Allow to dry thoroughly. Burnish all flooring to restore the floor to the ultimate “wet look” shine with a burnishing pad.

Note: Don't allow restorer solution to remain in the auto-scrubber tank. Drain and rinse.

This product meets the maximum content requirements for Volatile Organic Compounds (VOCs) as established by current State and Federal regulations.

TECHNICAL INFORMATION:	
Color:	Translucent opal green
Odor:	Mild Citrus
pH:	8.0 – 9.0
pH (1:20)	7.5 – 8.5
Viscosity:	Water thin
Slip Resistance:	Improves traction
Flash Point:	None
Solubility:	Complete with water
Detergency:	Excellent
VOC Content:	None
Storage/Stability:	1 year
Weight Per Gallon:	8.50 lbs./gal.
Freeze/Thaw Stability:	Keep from freezing
