

# PARA DEODORANT PRODUCTS

**Description:**

Paradichlorobenzene base material combined with a simple cherry fragrance to form an excellent deodorizer that masks odors on contact. All para products are simple to use, effective in eliminating malodors and an economical solution for deodorizing up to 30 days.

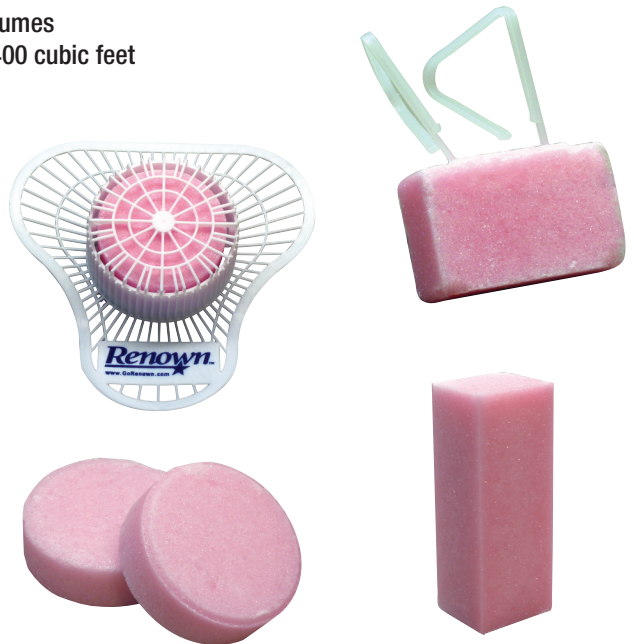

**Feature/Benefits:**

- 100% air activated; won't dissolve in water so fragrance goes into the air not the water
- Para continuously releases fragrance to combat the toughest odor problems
- Lasts for 30 days consistently: unaffected in high traffic areas
- No filler materials / dyed to match the fragrance
- All para items are individually flex-wrapped to ensure product stability.
- Fragrance and dye are consistent throughout the whole para block not just on the outside giving an even release of fragrance. Smells as strong on day 30 as day 1.
- Urinal Screen with para block virtually eliminates "splash back". Pliable screen traps more debris for extra drain protection.

**Specifications:**

- 99.75% paradichlorobenzene; .25% malodor counteractant perfumes
- Coverage area REN03000, REN03001, REN03002, REN03003 – 400 cubic feet
- Coverage area REN03004, REN03005 – 1000 cubic feet
