

# NON-PARA DEODORANT PRODUCTS

**Description:**

Composed of 100% active ingredients this product dissolves in water so the odor fighting ingredients typically reside in the trap to help fight odors. Additionally, these products are packed with ingredients that help keep porcelain clean, reducing cleaning time to a minimum. Eliminates odors: billions of beneficial bacteria release enzymes to break down organic materials. Helps control odors by eliminating them at their source. Saves time: surfactants, chelating agents and other ingredients combine to keep dirt and hard water particles from clinging to porcelain, speeding cleaning time.

**Feature/Benefits:**

- Water Soluble – Do not use in standing water.
- Surfactants and de-scaler help maintain a clean bowl
- Chelating agents surround the metal ions in the water to prevent rust/scale build up
- Blues the water so you know when they are working
- Urinal Screen with non-para block virtually eliminates “splash back”. Pliable screen traps more debris for extra drain protection.

**Specifications:**

- Longevity: REN03007, REN03008, REN03009, REN03010 – approx. 1500 flushes
- Longevity: REN03014 – approx. 1200 flushes
- Coverage: REN03010 – approx. 300 cubic feet
- Coverage: REN03007, REN03008, REN03009, REN03014 – approx. 400 cubic feet

TECHNICAL INFORMATION	
Color:	Blue
Odor:	Fragrant
pH:	N/A
Viscosity:	Solid
Foam:	N/A
Emulsification:	N/A
Detergency:	N/A
Biodegradability:	N/A
Solubility:	100% in water
Flash Point:	> 200°F
Storage/Stability:	3 Years
Weight Per Gallon:	N/A
