

REN03015-BD

BLUE TINT FLUSH TOILET BOWL CLEANER

Description:

Composed of 100% active ingredients this product dissolves in water so the odor fighting ingredients typically reside in the trap to help fight odors. Additionally, these products are packed with ingredients that help keep porcelain clean, reducing cleaning time to a minimum. Eliminates odors. Helps control odors by eliminating them at their source. Saves time: surfactants, chelating agents and other ingredients combine to keep dirt and hard water particles from clinging to porcelain, speeding cleaning time.

Feature/Benefits:

- Water Soluble
- Surfactants and de-scaler help maintain a clean bowl
- Chelating agents surround the metal ions in the water to prevent rust/scale build up
- Blues the water so you know when they are working

Specifications:

- Longevity: approx. 1200 flushes
- Unit size: 9 oz.
- Application: Flush toilet to drain tank and place block in toilet tank as far away from the drain as possible
- Packaging: 12 containers/box; 48 containers/case
