Description: This medium viscosity silicone product is formulated to provide excellent all around protection, lubrication and restoration properties. Contains no ozone depleting chlorinated or fluorinated solvents or hazardous air pollutants, and maintains compliance with VOC requirements. Use this product to provide lubrication and reduce friction, squeaking and freezing on moving parts, doors, windows, drawers, assemblies, cutting tables, sewing needles, knives and cutters. Prevents the build-up of glue or grease. Works well to weatherproof ignition systems, plug insulators, and distributor caps.
