

HIGH PERFORMANCE ICE MELTER

**REN05100-KS
REN05101-KS
REN05108-KS**

Features:

- Melts to -30°F
- Contains Calcium Chloride Pellets
- Contains “Dolomite” For Greater Traction
- High Performance Formulation

Fast Acting

High Performance is made with Calcium Chloride Pellets, which makes it one of the fastest acting ice melters on the market.

Hot

The Calcium Chloride Pellets in High Performance allows it to attack the snow and ice with instant heat.

Long Lasting

High Performance goes to work immediately but also has the added benefit of a longer working life. It is formulated to last up to 24 hours.

Corrosion Inhibitors

High Performance has added corrosion inhibitors that provide increased safety. The enhanced CMA (Calcium Magnesium Acetate) formula helps to protect against damage to concrete. The CMA also enhances the PH level of the soil structure.

Traction Control

High Performance adds “Dolomite” for greater levels of safety and performance.

Color Formulated

High Performance is coated with a “blue” color indicator for enhanced visual impact. This color is non-tracking and non-staining. This allows the applicator to achieve even and effective distribution.

TECHNICAL INFORMATION:	
Effective Temperature	-30°F (-34°C)
Color	Blue
Weight	50 lb (22.68 kg)
Packages Available	Bag / Box / Pail

REN 05100-KS - Bag
REN 05101-KS - Box
REN 05108-KS - Pail
