

BUTTON-LEVER ROLL TOWEL DISPENSER

REN05159-WB
REN05160-WB

Features:

- Stub roll feature for added capacity
- Controls usage by automatically measuring a 10 3/4 in. towel per service
- Made from durable ABS plastic
- Large capacity to reduce maintenance time

Description:

The Renown button-lever roll towel dispenser controls costs by reducing towel consumption 20% over uncontrolled roll towels. To use, first push the button and pull the lever twice. This dispensing method helps control waste. A fully loaded dispenser holds enough toweling for more than 900 hand-dries which is twice the capacity of the average folded towel dispenser. Holds a four-inch diameter stub roll in addition to a new roll, the new roll self starts after the stub roll is finished. The extra-large capacity of this dispenser allows it to go longer between refills, saving you costly maintenance time. Available in two models to accommodate either 8-inch or 7.5-inch width Renown controlled roll towels.
