

# LAUNDRY DETERGENT

**REN05639-US**  
**REN05640-US**

This product is an oxygen bleaching agent specially formulated for use on synthetic fabrics and colored laundry and may be used safely with enzyme presoaks or regular laundry detergents. Its exceptional mildness allows it to be added to the laundry during the filling operation. This product can be used in all temperatures, but hot solutions do the best job of bleaching and cleaning.

**Features:**

- Oxygen based
- Rapid solubility
- Safe on all fabrics

**Related Benefits:**

- Safe on all colors
- Begins destaining quickly
- No extra pre-sorting

**Important:**

Read and understand the label and Material Safety Data Sheet (MSDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The MSDS is provided with each container shipped. It is also available from the distributor.

**To Use:**

**USE DILUTION:** Concentrations will vary due to environmental conditions and load size. Your sanitation specialist will adjust properly to meet your needs. **DO NOT MIX WITH ANYTHING BUT WATER.** 1. Pre-sort laundry prior to wash. 2. Pre-soak or pre-spot laundry when necessary. 3. Place proper amount of laundry into laundry machine. 4. In wash cycle, feed a recommended liquid laundry break and liquid laundry suds. 5. When bleaching, feed this product into the laundry machine. **NOTE:** This product is most effective when used in hot water (150°-160°F). 6. When souring and/or softening, feed a recommended sour and softener into the laundry machine directly from the shipping container. Works best in the final rinse cycle. A final pH of 5.5-6.5 is recommended for the fabric.

See label for complete directions and use only as directed.

SPECIFICATION DATA	
Available Sizes:	5 gal., 15 gal.
Physical State:	Liquid
Color:	Colorless
Fragrance:	None
Specific Gravity:	1.010
pH (undiluted):	2.5
Phosphorus:	0.00%
