

LAUNDRY NEUTRALIZER

REN05645-US
REN05646-US

This product is specially designed to neutralize the alkaline residues of detergents, water hardness minerals, or iron in the rinse cycle of laundry programs. It can be used in any type of automatic laundry chemical feeding system. It prevents fabric harshness, excess wear and browning during ironing.

Features:

- Contains souring agents
- Phosphate free formula

Related Benefits:

- Proper pH control
- Meets environmental regulations

Important:

Read and understand the label and Material Safety Data Sheet (MSDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The MSDS is provided with each container shipped. It is also available from the distributor.

To Use:

USE DILUTION: Concentration varies due to environmental conditions and load size. Your sanitation specialist will adjust properly to meet your needs. **DO NOT MIX WITH ANYTHING BUT WATER.** 1. Use normal wash procedures. 2. In the final rinse cycle, use this product. A final pH of 5.5-6.5 is recommended for the fabric.

See label for complete directions and use only as directed.
