

REN05647-US

LAUNDRY SOUR & RUST REMOVER

This product is specially designed to neutralize the alkaline residues of detergents, water hardness minerals, or iron in the rinse cycle of laundry programs. It can be used in any type of automatic laundry chemical feeding system. It prevents fabric harshness, excess wear and browning during ironing. It will also eliminate iron stains for superior laundry results.

Important:

Read and understand the label and Material Safety Data Sheet (MSDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The MSDS is provided with each container shipped. It is also available from the distributor.

Features:

- Contains souring agents
- Contains rust inhibitors
- Phosphate free formula

Related Benefits:

- Proper pH control
- Inhibits iron staining
- Meets environmental regulations

To Use:

USE DILUTION: Concentration varies due to environmental conditions and load size. Your sanitation specialist will adjust properly to meet your needs. **DO NOT MIX WITH ANYTHING BUT WATER.** 1. Use normal wash procedures. 2. In rinse cycle, use this product. A final pH of 5.5-6.5 is recommended for the fabric.

See label for complete directions and use only as directed.
