Features:

- Removes stains and odors
- Pleasant fragrance

Description:

This ready-to-use multi-enzyme carpet spotter, and deodorizer utilizes a broad-spectrum odor counteractant that chemically neutralizes the malodor while bacteria work to eliminate the old stains. It is a complete solution for carpet spotting. Can be used as a carpet spot remover, deodorizer, as well as pre-treatment. Use on all types of soils and stains.

Directions:

STAIN REMOVAL (Carpet and Rugs) – Remove as much of the spill as possible from the stained area. Dilute product equally with water and apply to spot by spray or pouring. For darker, heavier stains, use full strength. Fully saturate area with solution to penetrate carpet backing. Because spots tend to expand, make sure to cover the entire area thoroughly. Place a clean, white towel moistened with diluted product over the area to keep damp for at least 24 hours. In some cases, repeat treatments may be necessary.

GENERAL DEODORIZING - Spray product directly onto the cause of the odor. For large areas, dilute equally with water, and apply by spray or pouring directly on odor source.
