# HI-SPEED BURNISHER

**Description:**

The Renown burnisher is designed and built for the requirements and challenges of everyday use. A flexible pad driver combined with the ability to lock or “float” the handle enables the floor to be quickly restored. “Floating” the handle allows the pad and machine to float over the floor giving a great shine on uneven floors. The amount of head pressure can be increased by simply locking the cam handle which gives the machine a little extra power to remove stubborn black heel marks.

SPECIFICATIONS	
Pad Speed:	1600 RPM actual pad speed.
