

**REN08012-VP**

## WET DRY VACUUM

**Features:**

This Renown wet dry vacuum features an automatic float shut off system designed to keep water and foam out of the vacuum motor. The large 1.33 HP vacuum motor provides superior suction resulting in dry, readily usable floors. The dry filter bag element converts the vacuum into a dry vacuum for the appropriate applications. A drain hose is attached to the rear of the machine for convenient draining. A 24 inch front mounted squeegee and contractor tool kit are included with each machine.
